She was the darling of my heart.
above others can I love
She was spotless as an angel
and as gentle as the dove.

though she has gone from me
I call her yet my own.
and I never can forget her as
long as time rolls on.
Of and broken hearted and with
a troubled mind.
I will travel this world all
over some place of rest to find.

A Sparkling young brown

Thou art the star that guides me
the compass that will never vary (still)

Pillow my head upon thy heart
my own cherished love...
and let us forget the past that is gone
then let me kiss thy tears away
and bid remembrance fly
back to the halcyon days of yore
when all was hope and glee...

Come let me part those clustering [curls]
and gaze upon thy brow
how many, many memories
crowd upon my spirits now
how much of happiness and grief
how much of hope and dread
breathe from each dear brow
most eloquently dead... - -
